

# SB9

## **80 WATT SOUNDBAR WITH ECO AUTO-STANDBY FUNCTION DESIGNED TO ALLOW DIGITAL INTERACTIVE MONITORS TO HAVE EXCELLENT SOUND**

Powerful  
80 watts

2 x 4" wideband woofers with Bass Reflex

OUT audio output to connect other audio systems in cascade

# SB9

## STEREO RCA INPUT

Thanks to the 3.5mm minijack cable it is possible to connect the soundbar to computers, laptops, tablets, touch monitors, IWBs, etc.

## AUDIO OUT

In the case of large rooms it may be necessary to add other audio devices for perfect coverage: thanks to the AUDIO OUT output it is possible to connect another EMPIRE amplified audio system (or more systems if the others are also equipped with AUDIO OUT).

## ECO STANDBY FUNCTION

Significantly reduce electricity consumption thanks to automatic ON/OFF. After 20 minutes of inactivity the SB9 automatically switches to STANDBY mode. As soon as you play a new audio signal the system will automatically reactivate.

# SB9

## METAL HOOKS

Thanks to the supplied metal hooks it is possible to install the SBS 70 Soundbar on the wall.

## INCREDIBLE SOUND

Thanks to the extremely efficient 80 watt amplifier, 2 4" broadband woofers and 2 1" tweeters for high frequencies, the sound of this SB9 is incredible.

## ECO AUTO-STANDBY FUNCTION

Significantly reduce electricity consumption thanks to automatic ON/OFF.  
After 20 minutes of inactivity the SB9 automatically switches to STANDBY mode.  
As soon as you play a new audio signal the system will automatically reactivate.
