

# WALL200

## **POWERFUL AND ELEGANT SPEAKERS WITH INTEGRATED WALL MOUNT AND LINE OUT OUTPUT**

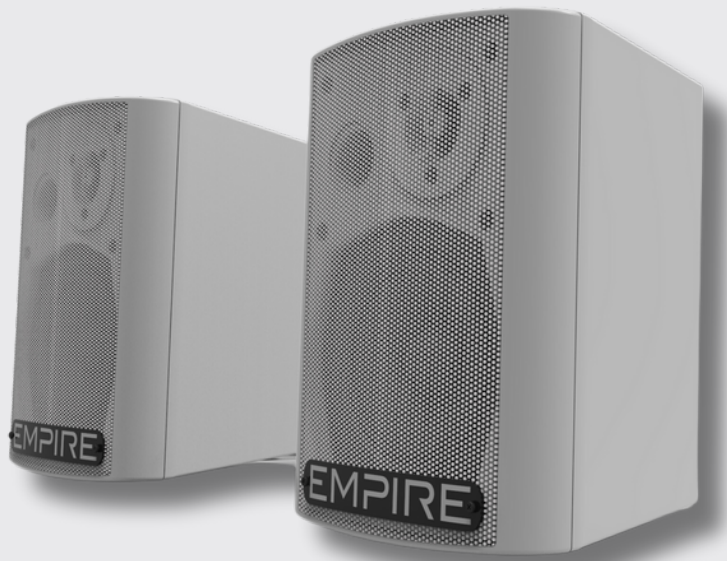

An extremely powerful and elegant amplified audio system.

Very powerful and above all highly efficient, also ideal for large rooms.

the cabinet is a MDF Fibre/Wood mix to maintain the softness and depth of the typical wood sound.

The sound is powerful and crystal clear, above all for perfect speech reproduction, therefore also ideal for remote conferences.

# WALL200

## IDEAL AS A COMPLEMENT FOR TOUCHSCREEN MONITOR

The WALL200 work perfectly with the most common audio sources, but are ideal when combined with the new touch screen monitors, splendid in video but much, much less so in audio and it is a shame to please only the eyes and not the ears too.

## IMMENSE ROOM? THEATER? CINEMA? NO PROBLEM

We have equipped this audio system with a special LINE OUT output to be able to connect multiple speakers in cascade in the same room, without signal loss. This guarantees a clear and homogeneous sound to the entire audience.

## REAR CONTROLS

Control panel with volume, bass and treble control.  
LINE IN for connecting PCs, Macs, Notebooks, Smartphones, Tablets, etc.  
LINE OUT to connect multiple systems in cascade.
